## Phase Three: Executive Summary for Schools

### Executive Summary for Schools

#### Description of the School

Describe the school's size, community/communities, location, and changes it has experienced in the last three years. Include demographic information about the students, staff, and community at large. What unique features and challenges are associated with the community/communities the school serves?

LES has 370 students in our K-5 program. We've seen a reduction in our student enrollment over the past 5 years as our community has been hit with economic challenges. Our school district as a whole has been seeing a loss of students and it is an indication of the times. We are seeing a positive trend in school behavior and positive culture and we are retaining our perspective levels to other schools in the district so we don't feel our students are exiting based on issues other than the loss of community population changes.

#### **ATTACHMENTS**

Please be sure to upload the files in the Attachments section at the end of the diagnostic.

#### School's Purpose

Provide the school's purpose statement and ancillary content such as mission, vision, values, and/or beliefs.

Describe how the school embodies its purpose through its program offerings and expectations for students.

We are establishing a foundation of learning. We teach the base level skills students will need to progress through their educational and work lives. We understand they will be lifelong learners and we strive to get their path started with a success and enjoyment as they make their way in the world. Each child will be a goal setter and then challenged to continuously make steps of improvement. We want to support our students build an exciting vision for their future.

#### **ATTACHMENTS**

Please be sure to upload the files in the Attachments section at the end of the diagnostic.

#### Notable Achievements and Areas of Improvement

Describe the school's notable achievements and areas of improvement in the last three years. Additionally, describe areas for improvement that the school is striving to achieve in the next three years.

We are pleased to see our Reading and Math scores are the highest they've been in the last 5 years. We continue to look for ways to increase our number of Proficient and Distinguished students. Having success and preparing our students for the next level and through graduation are key goals we have and celebrate. We are reducing our GAP scores as we have success with a wide range of students. Each student's growth path is unique and celebrated. We work to meet the need of each of our students.

#### **ATTACHMENTS**

Please be sure to upload the files in the Attachments section at the end of the diagnostic.

#### Additional Information

Provide any additional information you would like to share with the public and community that were not prompted in the previous sections.

No additional items.

### **ATTACHMENTS**

Please be sure to upload the files in the Attachments section at the end of the diagnostic.
